Midi Clip-on Product Specifications:
 • Produced from glass-fibre reinforced Nylon 6 which prevents brittleness in the sun.
 • Contains UV stabilizers.
 • Pigment additives cause UV blocking with the highest protection from UV deterioration.
 Stress load capacity: 100kg
 Temperature range: -30°C to +100°C Melting temp: +220°C.
 To be used on flexible material up to 6mm.

The 'TUBBER' Tension breaker offers elasticised resistance to the tugging of the wind on the tent ropes.
Material Specifications:
 Made from natural latex which is impregnated with graphite to minimize UV and oxygen degeneration.
 Breaking strain: 145kg.
